## EXPERIENCE

### **Gee Vision** / UI Designer & Developer

Sep 2017 - Present | Remote Location

Currently, I'm working as UI designer & Developer at Gee Vision on project based role. Here, my job role is to revamp their existing web platform International Indian Icon which is a global platform of talent showcase for Indian residing in foreign countries.

On this project I have closely worked on designing wireframe, mockups, creating prototype and development using html/ css/ javascript and bootstrap 3 for main website and dashboards.

### **Binary Stream** / UX Designer

May 2017 - August 2017 | Pune, Maharashtra

I worked on 2 projects here, one for an mobile application ui and other one is web dashboards.

On the first project I worked on designing mockups, creating prototype and optimizing the user experience.

On the second one I worked closely with product manager for gathering product requirement and designing a health care management system. While working on this project I have created wireframes, mockups, prototypes & product branding.

### **Inflogy.com** / Freelancer

Dec 2015 - April 2017 | Nagpur, Maharashtra

While working as freelancer I collaborated with some developers and worked on many different projects of mobile application, website and branding.

We have also created our own application which turns your android phone into a PC game controller. I have also worked on some other projects like physio-connect and metrozip etc.
